Subject: Increase of the entry fee and price of aerotows for the 12<sup>th</sup> Junior World Gliding Championships 2022 at Tábor, Czech Republic

Dear IGC delegates,

The Aeroclub of the Czech Republic together with the Aeroclub Tábor is the organizer of the 12<sup>th</sup> Junior World Gliding Championships in 2022.

Our offer for organizing the event was prepared in autumn 2017 with significantly different economic conditions.

Due to the latest economic developments, we are forced to ask you for your consent with price increase of previously offered entry fee and aero tows.

With regard to all circumstances, we kindly ask you for your approval to increase the entry fee to **850 EUR** from the originally offered 650 EUR and to increase the price of aerotows to **59 EUR** from the originally offered 50 EUR.

The main reasons for the requested price increase relate to strengthening of the Czech currency, total inflation rise since 2017 and the latest significant price increase connected with economic impacts of the COVID 19 pandemic (energy prices, fuel prices, aircraft maintenance prices, staff salaries).

Thanks in advance for your support. Our proved team from the 35<sup>th</sup> WGC 2018 at Hosín is ready to organise another successful event.

Yours sincerely

Tomas RENDLA  
Championships Director

Petr KOUTNY  
IGC Delegate, Czech Republic
