

**FAI International Gliding Commission**

2<sup>nd</sup> March 2022

**Subject:** Late proposal: Empower the IGC Bureau to move the WGC to Szeged once the negotiations with Szeged are successful

**Dear IGC Delegates,**

It looks quite impossible at the moment that we can organize a Championship in the vicinity of a NATO Military Aerodrome Kecskemet, which is only 12 km away from Matkopuszta.

In order to avoid this factor of uncertainty, the irreversible decision has been made: Matkopuszta -- as a location for the WGC -- has been abandoned.

In the meanwhile, we have contacted the Airport Szeged and the City of Szeged (which is the owner and also the operator of the Airport). We already have a positive unofficial response from them about the possibility to organize the 37th FAI World Gliding Championships in 18m, 20m, and Open Class.

While we are waiting for the official response from the mayor of Szeged, the Hungarian Gliding Association, as the organizer of the WGC, hereby would like to submit a Late Proposal to the IGC Plenary in order to empower the IGC Bureau to move the WGC to Szeged once the negotiations with Szeged are successful, but not later than 10<sup>th</sup> March, 2022.

Sincerely,

Andras Zeno GYONGYOSI  
IGC Delegate of Hungary
