Proposal:

- To add to the FAI/IGC calendar a World Championship category for sailplanes equipped with Electric propulsion.
- To approve an IGC working group to oversee the rules and development of an E-Glide category.

Aim of the proposal:

- To define a timetable for the inclusion of an E-Glide class in the FAI/IGC event calendar.
- To agree the structure for management of this class and the rules for the event.

Type the reasons in the space below:

- During the last few years there has been an increasing level of interest in exploiting the competitive possibilities of sailplanes equipped with electric MOP.
- There have been three successful E-glide competitions organised with a fourth planned for 2022. All these events have been organised in conjunction with the FAI/IGC E-glide working group using rules and procedures devised by IGC. If we are to further develop the concept it would be beneficial to identify a calendar for inclusion into the official IGC event calendar.

Provide supporting data or reference to external documents for the proposed technical amendments in the space below:

- Information on the current number of sailplanes with electric MOP will be provided at the plenum.
- Options on how an E Glide event could fit into the IGC event calendar will be presented at the Plenum meeting
