11 Oct. 2012	2012/18/10	<p><b>Subject</b> IPC Bureau approval for a proposed amendment to Freefall Style and Accuracy Landing Competition Rule 5.1.10 (3), for Mondial 2012.</p> <p><b>Details</b> The IPC Freefall Style and Accuracy Landing Committee requested an IPC Bureau Interim Decision, for an addition to CR 5.1.10 (3) Individual Accuracy Landing Event, which is inserted below in <b>BOLD</b>. CR 5.1.10 (3) For Junior competitors, the exit altitude is 800m, 2 competitors per pass. If the exit altitude is lowered to 700m, only 1 competitor per pass. For individual competitors, the organiser will put competitors into pairs, preferably from the same country, and they should jump in those pairs for the whole of the competition. <b>At a Mondial, or if it is considered necessary by the Meet Director for the completion of a competition, up to 4 competitors per pass is allowed, if the exit altitude is raised to at least 1000 m.</b> Explanation: The extraordinary high number of registered participants for the Mondial 2012 in Accuracy Landing gives reason for considerations, that being restricted by the rule to drop 2 competitors only at 800m, will lead to a situation where the completion of the full event may be in danger. A raising of the exit altitude and freedom to drop 4 competitors on one pass will increase the possibility for a completion. The Committee has taken into consideration also, that the age of the Junior competitors has been raised to 24 years and naturally also, the safety aspects of the extension. Also, a great number of the Juniors compete quite often in open competitions in Accuracy Landing.</p>	<p><b>Bureau Decision</b> The IPC Bureau approved this amendment to the Competition Rules for Freefall Style and Accuracy Landing <b>for Mondial 2012 only</b>. It is noted that a proposal from the S&amp;A Committee should be put on the agenda of the 2013 IPC Plenary Meeting if it is intended that this amendment is to apply to future FCEs.</p>
