

<i>Subject:</i>	<b>JUDGING – PROPOSAL TO AMEND FS CRs 5.4 and 5.4</b>	<i>Annex No. -</i>	<b>34</b>
<i>Author:</i>	<b>James Hayhurst, US Alternate Delegate</b>	<i>Agenda ref. -</i>	<b>20.5</b>
<i>Date:</i>	<b>15 November 2012</b>	<i>Page</i>	<b>1 of 1</b>

This is a general request to further review, post-Dubai WPC, the requirement for the second viewing at normal speed prior to viewing the problem areas of a jump at reduced speed. When points in time are not in question, it is much more efficient to be able to go directly to the points in question. The option should be there for the second full viewing to be done last, but only if needed. This would apply to FS and VFS.

### Current Rule:

5.4 The Judges will watch the video evidence of each jump at normal speed to determine points in time to a maximum of (2) two times. The moment of freeze frame at the end of working time will be determined at the first viewing. At the request of the Event Judge a (3rd) third view of part(s) of the jump will then be conducted at reduced speed between 70-90 percent of normal speed. The same reduced speed shall be used to judge all jumps requiring a third viewing. The Chief Judge will decide prior to the start of the Competition the percentage of reduced speed to be used for the different events. The freeze frame from the first viewing will be applied on each viewing

5.4.1 If, after the viewings are completed, and within fifteen seconds of the knowledge of the result, the Chief Judge, Event Judge or any Judge on the panel considers that an absolutely incorrect assessment has occurred, the Chief Judge or Event Judge will direct that only that part(s) of the jump in question be reviewed at reduced speed in accordance with 5.4. If the review results in a unanimous decision by the Judges on the part(s) of the performance in question, the score for the jump will be adjusted accordingly. Only one review is permitted for each jump.

5.5 The Judges will use the electronic scoring system to record their evaluation of the performance. The Judges may correct their evaluation record after the jump has been judged. Corrections to the evaluation record can only be made before the Chief Judge signs the score sheet. All individual judge`s evaluations will be published.

### Change to:

**5.4.** The Judges will watch the video evidence of each jump **once at normal speed** to determine points in time. **A second timing will be allowed if the last point in time is in question. At the end of working time, freeze frame will be applied on each full viewing. At the discretion of the Chief Judge and the Event Judge, judges may then be allowed partial playback, slow motion, and multiple views to increase the quality and speed of the judging.** If, during the judging cycle, the Chief Judge, Event Judge or any Judge on the panel considers that an absolute infringement has occurred, that infringement will be brought to the attention of the Event Judge within 15 seconds to insure it has been correctly scored by the majority of the Panel Judges.

**5.5.** The Judges will use the electronic scoring system to record their evaluation of the performance. The Judges may correct their evaluation record after the jump has been judged. Corrections to the evaluation record can only be made before the Chief Judge signs the score sheet. All individual judges' evaluations will be published.
