### CANOPY FORMATION COMMITTEE

#### 2012 ANNUAL REPORT (Pre Mondial)

It has been a quiet year for Canopy Formation leading up to the Dubai Mondial being the main event for the year.

The 2-Way Sequential Event continues to be the most strongly supported event within the Canopy Formation Discipline. This was evident at the Dubai Mondial where 22 teams registered for the 2-Way event, nine teams registered for 4-Way Rotation event, and four teams registered for the 4-Way Sequential event.

At this point there are no proposals for changes to the rules. We acknowledge Dirk and Claire from In-Time for enhancing the scoring software in time for the Mondial to include the correct function of the 30 second rule for the canopy formation events.

During the year France registered a new 2 Way Sequential World Record of 36 Points, and the committee would like to congratulate the French Team for their achievement.

We would like to encourage NACs to consider presenting a bid to host future World Parachuting Championships and World Cup competitions for Canopy Formation.

I would like to conclude by thanking the members of the Canopy Formation Committee for their work throughout the year.
