Reversal of the IPC Plenary decision of 2012 in Buenos Aires, Argentina to grant a start-up amount of 50,000.00 Euros to the company IPETA. At the moment of the decision it was only clear, that the company was lead by 3 directors. The Plenary was not informed , that IPETA was founded as a company which is actually OWNED by the 3 directors, neither there was given any information about the legal status of the company. The publication of the status documentation of the company has not been made kown to the Plenary. IPETA seems to be nothing more than a privately owned company, in which FAI-Federation money for IPC-use is channelled.

In the current status, the position of the IPC-Plenary in IPETA is unclear and has not been published. Clear is, that even if the representation of the Plenary within IPETA with ONE vote is outnumbered all the time by the 2 votes of the IPC-Bureau members.

I propose, to have a board of Directors of a minimum of 5 IPC-Delegates, where not more than 2 members may be members of the IPC-Bureau at the same time.

Dr. Rainer EXI Hoenle
IC-Delegate Germany
