## 2012 Freefall Style and Accuracy Landing Report

The most important event in 2012 will be the Mondial in Dubai UAE. It is taking place from 29<sup>th</sup> November to 09<sup>th</sup> December 2012. The report will be generated by the Mondial. So far, it can be said that it is one of the greatest competitions that have taken place in skydiving.

For the discipline of Freefall Style and Accuracy Landing the following competitors are registered so far:

- 40 Male Teams
- 16 Female Teams
- 52 Individual Juniors

You will find more information in the report from the Chief Judge and the Committee after the competition.

In 2012, I wanted, as Chair of the committee to check the electronic measurement and evaluation system from Russia. But due to scheduling difficulties and incorrect data the test could not be realised. It was also not clear who will take over the travel expenses. I asked Mr Vladimir Gazetov but I didn't get an answer.

We will clarify how to check the Russian system during the IPC meeting in Banja Luka.

From 04 to 07 October 2012 during the "Italian Championships and Valdera Cup" I was checking the electronic system for Accuracy Landing and the video system for Freefall Style from Mr Weckbecker. The images of the Video camera are now digitized and therefore have a better quality. Also the new rules of 2012 were taken over in the system.

The Europa Cup tour AL was again carried out in six different countries. I spoke with three organizers if it is possible to perform under the direction of the FAI. But it was not accepted from the organiser. It will still take more time to convince them to do it in cooperation with the IPC.

### Future competitions

7<sup>th</sup> FAI European Freefall Style & Accuracy Landing Championships and  
4<sup>th</sup> FAI Junior European Freefall Style Accuracy Landing Championships and World Cup  
in Grozny – Russia from 22.08 – 27.08.2013

During the IPC meeting it should be clarified how the security could be guaranteed in Grozny.

A letter concerning the security from the Russian Federation is not enough. There are still warnings from most West European embassies.

Bosnia-Herzegovina has also shown some interest in a Competition in 2013 and a bid to host for Mondial in 2014.

I would like to thank the Committee for their support and work in 2012.

Günter Berendt

Chair, Freefall Style and Accuracy Landing Committee
