

**SLOVAK**  
**bid to host the**  
**18<sup>th</sup> European Aerobatic Championship 2012**

Dubnica nad Váhom, October 17<sup>th</sup> 2011

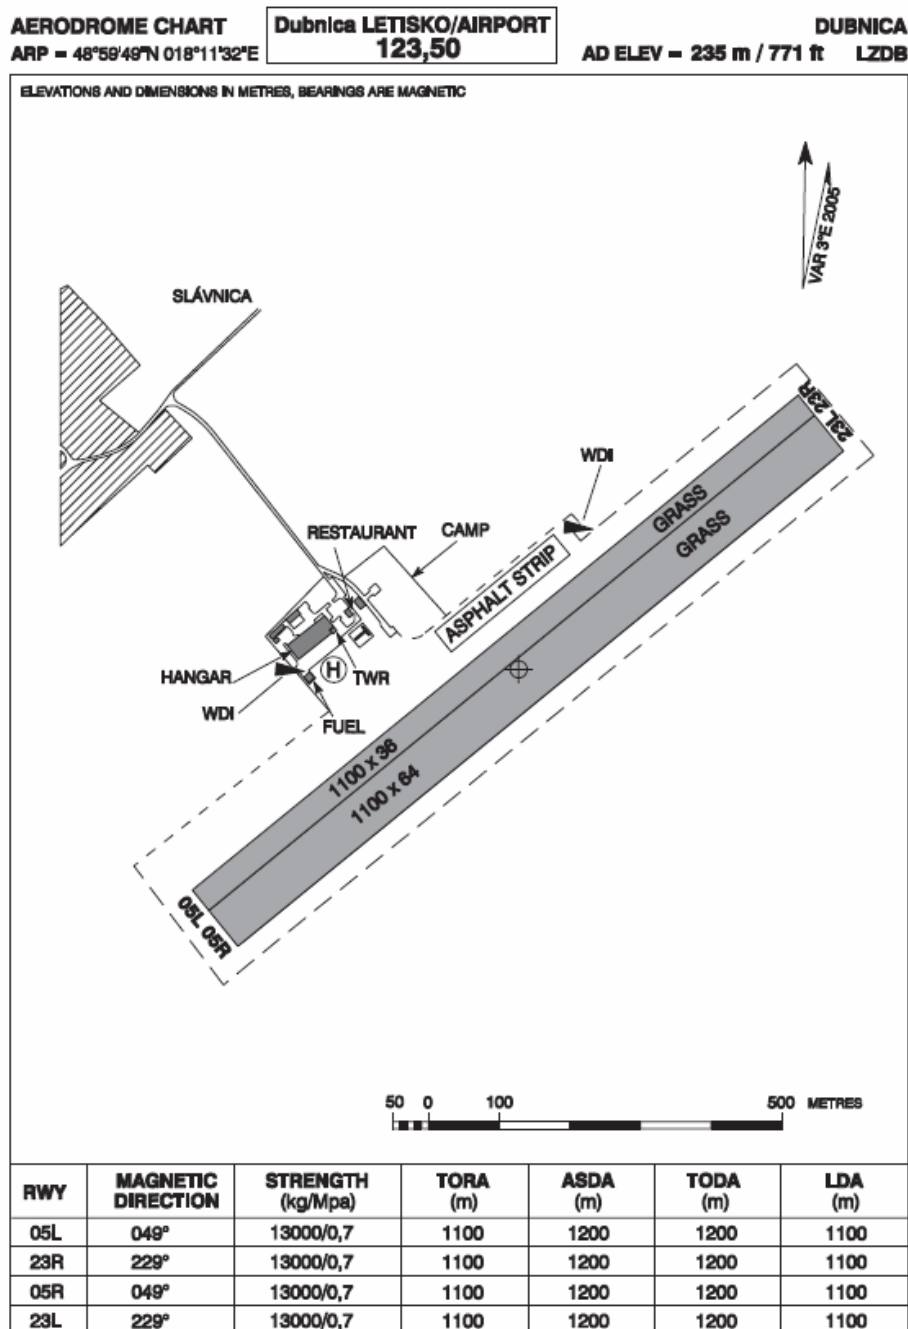

## 1. Proposal dates

- September 1<sup>st</sup> – 9<sup>th</sup> 2012

## 2. Location

The proposed location is Dubnica nad Váhom airport (LZDB), Slovakia. Airport is located 120km North-West of Bratislava. Length of two parallel grass surface runways is 1100 m. Airport have no problems with a rain soaked runway thanks to the mostly sand based subsoil.

Slovak National Aeroclub  
Aeroclub Dubnica nad Váhom

*Bid to host the 3rd World Advanced Glider Aerobatic Championship 2012  
and 11th European Glider Aerobatic Championship 2012*

### 3. Box position

The box will be situated in the north towards the runway with south-east side parallel to the runway. The box position is shown on the following picture.

Ground radio communication will be established using repeater station to provide good communication channel between the judging line and airport. Air-band high power/gain radio stations will be used to provide safe communication channel between the judging line and competitor.

### 4. Entry fees

- competitors - **EUR 1750**
- other team members and observers - **EUR 1500**

The entry fees cover:

- fuel and oil for competition flights
- shared accommodation – double room
- breakfast, lunch and dinner
- transportation between airfield and hotels
- official and social functions
- program arranged by the organizer
- sanction fee

### 5. Weather Info

Weather history of the area at the relevant time of the year

Average values of 10 years in:	July	August	September
Average temperature:	18,7 °C	19,5 °C	13,3 °C
Average daily minimum:	8,4 °C	7,1 °C	1,96 °C
Average daily peak:	32,3 °C	32,7 °C	26,1 °C
Amount of precipitation:	86,2 mm	35,3 mm	76,7 mm

Dubnica Airport is located in the valley of river VAH, where is largely dominated the direction of winds from the north side, i.e. North winds, percentually around 13%, the second most common flow is from south-west direction about 11%.

The lowest wind velocities prevail from the eastern direction and highest from north-west, second most common from south-west directions.

In this area is an average of 29 days/year with thunderstorm activity.

(Information resource: Slovak Hydro - Meteorological Institute)
