**Personal Statement: What role did Aeromodelling play in your life and what are your aspirations for the future?**

NAC Signature. \_\_\_\_\_  

President or Secretary General of nominating FAI National Airport Control

(must be submitted to the FAI Office by November 15)

## Personal Statement

Models are my life. When I was 12 I started working with models. Whenever I have spare time I do models. Now six years I don't remember a day that I don't think for the models. With each passing year increases the thrill. Thrill to climb the ladder is unspeakable. In 2012 I had the honor to become World Champion when playing the national anthem is wonderful feeling can't describe it must be tested. From small was my dream to be the best in the world, this year reached it, but it goes through my mind to stop working on this sport. Even now I have a great zeal to work and win. With each victory, increasingly set for defeat. In the future, don't think to give up the sport. I think for next World and European titles.

Toni Stanev
