Those who are not covered in the USA will need to purchase a membership in the U.S. Parachute Association, which provides \$50,000 in liability coverage. Members of USPA are covered by third-party property damage and third-party bodily injury liability insurance according to the terms and conditions of the policy while the member is jumping at a drop zone. Coverage is valid worldwide for members who are permanently domiciled in the U.S. or Canada and foreign members when skydiving in the U.S. or Canada, provided all claims and suits are brought in the US or Canada. For more information, visit: uspa.org/insurance

2.11 INDIVIDUAL INSURANCE

Individuals should have at least \$250,000 in medical and repatriation insurance. If buying travel insurance, check the fine print carefully. Many travel companies do not cover the cost of skydiving-related accidents.

2.12 ENTRY FEES

Note: Pricing takes into account all factors as required by current ISC rules such as judging panel needs and the number of rounds. Cost of lift tickets has been determined by a \$4/gallon rate for fuel. The projected cost of a lift ticket in 2026 is anticipated to be \$37. All entry fees have been determined using this anticipated cost. Any unexpected increase which requires a cost beyond \$37 per lift ticket will result in the organizer requesting permission to adjust fees accordingly. Also, should any changes to the rules result in increased costs, the organizer reserves the authority to increase the pricing. In such an instance, the ISC will be promptly notified, and the changes will be outlined in Bulletin 1.
