Contest Notes:

Motors, igniters and plugs will be provided to contestants at the meet for S4A, S6A, S9A and S8P. The only motors provided will be: 1/2A3-2T, 1/2A3-4T for S6A and S9A; A3-2T and A3-4T for S4A; S8P: D2.3 reloads.
Note: D2.3 reloads will be provided; it is the contestant's responsibility to bring their own cases with a plugged forward closure.

Contestants must provide motors for S2/P and S7; they must be NAR safety certified and contain 30 grams or less of propellant.

Adrel altimeters only can be used for S2P. Adrel altimeters will be available for rental for a \$100 refundable deposit, or competitor can supply their own.

Every flyer is expected to bring a support person who can help time during the contest. We rely on volunteer timers to make sure the meet flows smoothly and everyone gets to fly when they would like. That also eliminates the need for range shifts, letting contestants concentrate of flying.
