

TO: IGC Delegates
11Jan02
SUBJ: Mar02 IGC Meeting Report
FROM: IGC Environmental Commission Representative, Bernald S. Smith, EnvCom VP

Our EnvirCom meeting scheduled for 1/2Feb02 in Lausanne, Switzerland, which I will attend, is too late to meet the deadline for this report. The agenda will include discussion of items listed below. A report to you will be prepared as soon as possible after the meeting, to send to you or distribute to you at your Mar02 meeting.

ACTION REQUESTED

IGC and its' delegates need to take proactive stances in environmental matters. Last fall I proposed to the SSA to accept the FAI Environmental Code of Conduct, and they formally did. IGC needs to do the same, urging its members to do so.

PROPOSED RESOLUTION

Having proposed the gliding portion of the FAI Environmental Code of Conduct, IGC formally endorses and adopts the FAI Code of Conduct as it applies to gliding and urges its members to take similar action.

-----FAI Environmental Commission - Feb02
