

CIAM Flyer

Annual Report 2012

Until the CIAM bureau meeting December 2012 five issues of the printable PDF Flyers were produced and the some weeks later the last issue No. 6.

1-2012 The World of Indoor Flying

With the kind help of a experienced RC indoor competition flyer.

2-2012 Space Models (Hi)Story – 50 Years in the FAI

With very active support of Srdjan D. Pelagic , chairman of the CIAM Space Modelling Subcommittee and several competent authors and photographers.

3-2012 Foam is followed by Fabrice - Flying with model paragliders

Supported by some paraglider pilotes and model paraglider pilots and a some manufacturers of this new flying bodies.

4-2012 Quiet Flights over Land – All about RC Airships

Written by Marcel Prevotat, chairman of the CIAM F7 Subcommittee.

5-2012 Flying with Solar Power

The first pioneers of solar powered flights were model flyers.

6-2012 Open ? ?

I'm pleased that I got again the competent support by CIAM subcommittee chairmen. I hope for continuation for the year 2013. As you can see, your work will bear fruits. Thank you very much.

Emil Ch. Giezendanner
