Report to GAC

1. The Report on the 13th WRFC, Rustenburg was already presented to you under point 6 of the Agenda.
2. The Local Rules for the 14th WRFC, Herning were agreed by both Subcommittees yesterday and issued to the GAC Delegates.
3. Based on the experience gathered during the 13th WRFC in Rustenburg the Subcommittee has amended the draft for the 2004 Rally Rules. The main goal of the amendment was to prescribe more strictly the competition in order to have good rules for World and Continental Rally Flying Championships but still have competitions where the crews may demonstrate their capabilities without getting frustrated.
Proposals for amendment to solve the problems described (A 2.11, A 3.1.1 and B 9.2) were presented to the Floor and discussed. The floor turned down the proposed changes with 11 votes against 8 votes and 3 abstained.
Rally Rules and Regulations 2004, corrected in accordance with the results of the voting, were agreed by the delegates.
4. Technical Equipment
During the 13th WRFC, Rustenburg the Jury and the International Chief Judge have evaluated a landing measuring device built and used in South Africa for quite some years. The system may be used for Rally Flying competitions. An evaluation report was forwarded to the GAC Bureau.
