Mr Ross Macintyre, Interim Committee Chairman  
January 2020

### **SC3 Committee Report to IGC Plenary 2020**

## SC3 Committee Report to IGC Plenary 2020

The main point of our work in 2019 is that it went incredibly smoothly. No missed deadlines, but fruitful discussion. All members worked intensely on the areas allocated to them.

Committee members are Ross Macintyre (acting chairman), Tony Burton, Howard Mills, Judy Ruprecht, Wojciech Scigala, Beryl Hartley, and Tor Johannesson. Each member will continue in 2020.

The committee has continued its goal of recent years to further simplify the content and text of the Sporting Code, and to remove evidence requirements for record and especially badge claims that are less relevant or necessary in the GPS world. The removal of the landing certificate in 2019 and upcoming proposals to the 2020 Plenary to remove glider type in the declaration and to eliminate written declarations are examples.

There were a number of code bugs which were spotted (main credits to Judy and Howard) and dealt with.

Updating the record forms was an extended job between Howard Mills and Tony Burton. The forms were brought up to date with the Code but, importantly, were redesigned to make clearer the separate inputs from the pilot, OO, and data analyst.

Ross Macintyre

Acting Chairman.
