

Dear Racers all around the World

Since 2022 was our first non-Covid year our international World cup racing started again!

First of a big thanks thank you to all the clubs and their members that hosted the races this year. We still have the good old places to race but also new ones that welcomed us. Thank You All !!

During the six World cup races spread over the European mainland and Britain 103 competitors have been racing in our four classes F3 - D, E, T and R. I am very happy with that amount of racers that travelled around Europe and supported the races and the hosting clubs.

First I do a little explaining on the scoring system of the world cup. We score three out of a minimum of five races. Each country can enter two races abut only one can score. We take the best scoring race for you! At least two competitors from different nationalities should make a valid flight in that race to be valid for world cup. See more of the rules at <https://www.fai.org/page/ciam-code>

Considering this and thx to Bram for the calculations we have world cup results in F3D and F3T.

I want to congratulate Emile Broberg , Bram Lentjes , Thomas Andrlik with F3D and Leon Uher, Gerald Coors and Andreas Proos in F3T with their world cup results! We are currently investigating the moment we will present the medals and diplomas to the winners of both category's.

A special remark for Jiri, Jan, Thomas and Lorenzo who displayed outstanding performance in F3E and F3R but unfortunately due to the minimum of 5 races world cup will not be awarded this year.

Below the full results. You can see a column Olomouc/Melnik that's to decide the best CZE result. The column Fastest time is to solve a tie in points. Normally we increase the number of counting race results till the tie is solved. Since we have nil scores then we go to the fastest race time.

Below the numbers of racers attending our races and the distribution among the classes in 2022.

	Class	F3D	F3E	F3R	F3T	Total	no Sport lic.
		78	25	4	88	195	25
Pisa	ITA	12	0	4	29	45	9
Palsboda	SWE	15	0	0	11	26	0
Olomouc	CZE	9	10	0	9	28	0
Rothenburg	GER	12	5	0	11	28	4
Melnik	CZE	21	10	0	21	52	1
Britisch Nats CXD	GBR	9	0	0	7	16	11

The total entries is somewhat higher because some compete in more than one classes. We also did see quite a few without a valid sporting licence complicating the calculation of the world cup results and worse it even let to cancelation of one race in the overall results! A sporting licence can be obtained at your national Aero Club (NAC) and costs one carbon fibre prop. Please get one for next 2023 racing season !!

What we are missing is world cup series racing in the rest of the world !

Japan, Australia, Mexico, USA , Canada, Portugal, Indonesia, France, Qatar!

I know you are racing there and.....

I am currently talking with some of you already but if not don't hesitate to contact me and make 2023 a bigger race year.

If you host the biggest race in your country and don't know what to do to be on the world cup series for this season just drop me a email. I can get you in touch with you NAC ASC (Air Sports Coordinator) to set up your World cup for 2023. For all races in the Americas I want to explain head to head racing is also possible. The World cup point system was designed to cope with both head to head/point system and timed racing events. Semi finals and finals are encouraged to score extra points.

For the 2023 season we are currently establishing racing in Pisa, Palsboda, British Nats, Rothenburg, Mexico and Quatar! I would like to once again invite Czech Republic, Japan, Indonesia, USA, Canada, Australia, Portugal, France, South Africa, New Sealand, to get onboard !

Best Regards and Happy 2023

Robbert van den Bosch
