mark the boxes with **X** as appropriate

Type the text changes in the space below (show deletions as ~~strike-through~~ and additions as **bold underlined**):

Scoring with 95% of the total distance.

Pilots who exceed 95% of the Maximum possible task distance from their selected Start point his credited time will be his real time., not the Minimum Task Time.

Type the reasons in the space below:

The Proposal is in the way to solve some situations that arises when flying an AAT Task and for some reason, the maximum available Distance is reached in less time that the official scheduled time, the pilots in such situation loose points due to reduced scoring speed after dividing the total flown distance by the scheduled time.

Provide supporting data or reference to external documents for the proposed technical amendments in the space below:

This scoring ads would bring a bit of justice for the fastest pilots in a competence keeping their performance rewarded due to consider the real speed in the Task.
