Type the text changes in the space below (show deletions as strike-through and additions as bold underlined):

1.2.3

The total period of the event shall not exceed 46 <u>15</u> days including two days on which the Opening and the Closing Ceremonies are held. At least one non-flying rest day shall be given during the period. An official training period of three days immediately preceding the opening of the Championships shall be made available to all competitors.

Type the reasons in the space below:

(a) Regarding to the available time the pilots have nowadays the 16 days mentioned in 1.2.3 is too much. Above these 16 days there is a training week.

In practise it means that most pilots are traveling during the weekend/Monday before the comp starts. Three days training is rather short.

We have to realize that our pilots are no professionals, but hard working people to earn enough money to fly our comps.

Provide supporting data or reference to external documents for the proposed technical amendments in the space below:

Week 1

Monday, Tuesday free training

Wednesday, Thursday, Friday

Saturday, reserve training day (e.g. when weather has been bad),

17.00 Opening ceremony

Week 2

Sunday 1st comp day,

Week 3

Friday, last comp day, Final Party

Saturday pricegiving, closing ceremony
