PLACE BASED SCORING

Date: 2 Dec 2019

Proposal submitted by: Australia (NAC)

Type the text changes in the space below (show deletions as ~~strike-through~~ and additions as **bold underlined**):

8.1 SCORING SYSTEM: The Organisers shall state in the Local Procedures which Scoring System (Classic or Alternative) will be used for each class, **and if scores will be allocated using place based scoring.**

8.4.3 Place based scoring

Following determination of relative placing, points are then awarded based on the placing as per the following:

- 1 point for each competitor that completes the task
- 1 point for each competitor that you beat
- 1/2 point for each competitor that you draw with (equal performance).
- 1 bonus point for placing first. If two or more competitors are equal first, each shall score 1 bonus point.

Type the reasons in the space below:

To reduce the reliance on gaggles and following other pilots.

Similar to the SGP scoring, except all competitors can get points. Includes Points for non finishers

Example: With 30 gliders in the class, 20 complete the task. 31 points for Winner, 29pts for second, 28pts for third, 11 points for 20th (last finisher), 9pts for 21st, 1pt for 29th. 0 pts for 30th.

Beat someone by 5 seconds or 10minutes, you get 1 more point than them. Sitting in the gaggle and coming home with the crowd under our current scoring means all get effectively the same points. In place scoring coming home with the gaggle could lose you most of the day's points, so you have to be prepared to lead out and take the advantage.

The whole competition would need to be scored with place scoring
