FOREWORD

This document describes the CIVA internal operating regulations. It covers aspects such as structure and organisation, committees and working groups, duties and responsibilities, finances, the Plenary Annual Meeting, championship bidding process, and elections, among a number of other topics.

As such it forms an essential piece for CIVA operations as a FAI Commission. It assembles all specific regulations applicable to CIVA bodies, officers and delegations, in complement to the more general FAI applicable documents. It will help new comers grasp how CIVA operates to achieve its purpose, and for all CIVA stakeholders serve as the uniting, go-to place on our common framework.

Finally, the existence of such an Internal Regulations document is a pre-requisite for reviewing and evolving in a structured way how CIVA operates. By inherently inviting discussions and debates among stakeholders on how internal regulations should be amended to serve CIVA’s purpose, this document aims at adapting to the World’s changes and developing a continuously better CIVA.

2.4.2.1. **CIVA Plenary** has the highest decision power within CIVA. Decisions taken during the CIVA Plenary Annual Meeting can only be changed by CIVA Plenary at the next CIVA Plenary Annual Meeting, unless new developments are deemed by the Bureau to require urgent resolution – in which case the Bureau will request prior approval of the CIVA Plenary, or will directly take action and report to the CIVA Plenary. CIVA Plenary decisions apply in particular to:

a) Budget for the year following a CIVA Plenary Annual Meeting

b) Rule Changes and judging criteria to the FAI Sporting Code, Section 6, Parts 1 and 2

a) Managing and approving changes of venue or dates of international aerobatic championships which were approved at a CIVA Plenary Annual Meeting to be held the following year;

d) In general topics which progress or resolution cannot wait for the next CIVA Plenary Annual Meeting, and which are deemed by the Bureau to have very significant implications for CIVA.

2.4.2.5. Actions and decisions which the CIVA Bureau intends to take between two CIVA Plenary Annual Meetings and which would require a change to decisions taken by CIVA Plenary or would not comply with decisions taken by CIVA Plenary, will have to be approved by CIVA Plenary at the next CIVA Plenary Annual Meeting. Prior CIVA Plenary approval is required for following actions and decisions, but are not limited to:

3.4.1.2. CIVA internal and external factors might give reasons to evolve or update the Strategic Plan or one or more FAI member nations would like to see changes.

3.4.1.3. Because a strategy is a long-term issue, changes to the Strategic Plan should be very well thought through and supported with strong arguments.

3.4.1.4. Changes to the CIVA Strategic Plan can be requested as follows:

   a) FAI Members submit a proposal to CIVA Plenary for voting at the CIVA Plenary Annual Meeting.

8. THE CIVA SPORTING CODE

8.1. Principles

8.1.1. The CIVA Sporting Code consists of sporting regulations governing all CIVA aerobatic competitions. The Sporting Code includes:

a) The General Section of the Sporting Code, which contains rules common to all air sports, and is established by the FAI Air Sport General Commission.

b) The CIVA section of the Sporting Code (aka Section 6), which contains rules for aerobatic competitions, and is established and implemented by CIVA. Section 6 must not conflict with the General Section.

c) The provisions of the CIVA Sporting Code apply to each participant and official in any CIVA event.

8.2. Rule Committees (Power, Glider)

8.2.1. Roles and Responsibilities

8.2.1.1. The Rules Committee (RC) and the Glider Aerobatic Committee (GAC) are responsible for:

a) Reviewing aerobatics sporting code rule change proposals, according to the process described in 8.3. Scope covered by these Committees is all content and themes relevant to the Sporting Code Section 6 (i.e. belonging to a Section 6 headline or paragraph)

b) Executing the Sporting Code decisions taken at Plenary, and keeping the Sporting Code up-to-date and to a high standard.

8.2.1.2. The RC and GAC chairpersons are responsible for the overall functioning and administration of their respective Committee, and for reporting to the Plenary Annual Meeting.

8.2.1.3. Rule clarifications:

a) Before a contest: anyone can seek guidance from the RC or GAC for clarification on correct interpretation of a rule. The RC will then give its conclusion diligently. In case this conclusion involves a potential rule enforcement element, the RC will make a recommendation to the Bureau, which will then make the final decision and ensure any resulting enforcement.

b) During a contest, any request for rule clarification on site shall be directed to the International Jury, which also has enforcement powers.

8.2.2. Governance

8.2.2.1. The Rules Committee (RC) and the Glider Aerobatic Committee (GAC) act and make decisions as collective bodies. All RC and GAC decisions should, if possible, be made by unanimity between the Committee members. If unanimity cannot be reached, the chairperson will call for a vote to decide an issue by simple majority.

8.2.3. Harmonization process

Reserved

Harmonization Part 1 (Power) and Part 2 (Glider) wherever it makes sense to avoid unjustified divergence => Alignment on relevant items to the best extent following RC and GAC meetings
8.3. Rule changes process

8.3.1. Overview

8.3.1.1. Rules in the Sporting Code Section 6 may be modified based on proposals that can take different forms, with each form following a different process:

a) Normal proposals (NP)

b) Urgent proposals (UP)
   i) Safety proposals (SP)
   ii) Expedited proposals (EP)

c) Correction proposals

8.3.2. Normal Proposals

8.3.2.1. Normal Proposals (NP) are proposals submitted each year by CIVA Delegates or the President of CIVA before the deadline published by CIVA (usually by the RC or GAC chairperson). These proposals follow the review process.

8.3.2.2. By extension such proposals may be submitted on request of CIVA by specially appointed Working Groups.

8.3.2.3. Rule proposals shall include the following items:

a) Proposal title

b) Relevant Sporting Code Part (Part 1 and/or Part 2)

c) Proposed text incl. ref paragraphs

d) Rationale and, optionally, any other relevant background

8.3.2.4. The package with all submitted Normal Proposals will be collated and published by the RC chairperson.

8.3.2.5. The RC and GAC mandate is to assess absolutely all proposals impacting Section 6 (Part 1 for the RC, Part 2 for the GAC). These Rule Committees shall make sure proposals undergo detailed scrutiny before declared 'good-to-go-for-plenary-vote'.

8.3.2.6. The objective of the RC and GAC work is to guarantee towards delegates (the Plenary) that all proposals submitted for vote are safe, comply with CIVA and FAI standards, are mature enough, thought-through, improved or amended wherever needed, and void of potential adverse consequences.

8.3.2.7. To this end, the Rule Committees will, separately, meet (physically or on-line) in order to review, discuss and decide on submitted proposals.

a) For practical purposes and to optimize assessment and outcome, the RC and JC may meet together to review relevant proposals.

b) The Rule Committees meetings are open to Observers.
   i) Observers must declare attendance in advance to the respective Rule Committee chairperson for logistics;
   ii) Observers are not allowed to participate in the debates unless invited to do so by the Chairperson on a specific topic.
8.3.2.8. The RC and GAC are entitled to:
   a) pass proposals as such for Plenary discussion and vote;
   b) amend proposals before Plenary discussion and vote;
   c) reject proposals that do not fulfil conditions described in 8.3.2.6;
   d) make any relevant recommendation.

8.3.2.9. Passing the RC/JC and/or GAC review is the result of a consensus or simple majority decision by the attending Committee members, that those proposals shall be considered by the Plenary.

8.3.2.10. Passing this review does not necessarily imply that the RC/JC and/or GAC recommend those proposals to be adopted.

8.3.2.11. Each Rule Committee (RC and GAC) will issue a report prior to the CIVA Plenary Annual Meeting, with proposals submitted to Plenary debate and vote – including the reasoning for all significant revisions and/or rejections.

8.3.3. **Urgent Proposals**

8.3.3.1. Urgent Proposals (UP) are submitted by NACs (through CIVA Delegates) before the deadline published by CIVA, as a result of experiences at Championships and for which discussion is requested at CIVA’s next Plenary Annual Meeting in the same year.

8.3.3.2. Once the deadline for UP is passed, the President of CIVA shall classify submitted proposals either as Normal Proposals (which would then follow the NP process in the following year), Safety Proposals, or Expedited Proposals.

8.3.3.3. Safety Proposals (SP) are classified as such because they relate to safety problems and merit consideration without delay.

8.3.3.4. Expedited Proposals (EP) entail minor changes which do not require full Committee consideration.

8.3.3.5. Urgent Proposals classified by the President of CIVA as SP or EP are submitted directly to Plenary without any review by the respective RC/GAC.

8.3.4. **Correction Proposals**

8.3.4.1. Correction Proposals (CP) are purely editorial remarks (e.g. typos, missing reference,...) which clarify but do not modify whatsoever existing rules. Such proposals may be sent anytime to the RC or GAC Chairperson as appropriate, and implemented as relevant in the next issue of Section 6 corresponding Part without going through the full-fledged approval process, and hence save time in RC/JC/GAC discussions as well as in CIVA’s Plenary Annual Meeting.

8.3.4.2. Proposals are classified as CP by the RC (respectively GAC) chairperson; however if anyone of the respective Committee members objects to this classification, the proposal automatically goes into NP status.

8.3.5. **President’s Proposals**

*Reserved* 

Description of President’s proposals process and criteria:
- Proposals will be submitted directly to Plenary without RC/GAC consideration
- Aiming at not losing time going through the full-fledged NP process
- President using this option wisely, based on consideration that there is no need to go through the full-fledged process (i.e. no lack of maturity,
no significant risk of unintended consequences, etc) together with a sense of urgency.

- President’s proposals to be published with a two-week notice prior to Plenary in order for Delegates to review and assess.

8.4. Rule waivers

8.4.1. Before contests

8.4.1.1. Should Organisers wish to request a waiver on any of the applicable rules in the FAI Sporting Code Section 6 before the opening of an event, they shall submit a waiver application to the CIVA Bureau with sufficient notice. The CIVA Bureau will then decide to grant or dismiss the waiver based on the submitted elements. Only an explicit positive answer from the CIVA Bureau will determine a waiver has been granted. In such case any waived rule shall be announced in the event bulletin and sent without delay to the NACs which have indicated an intention to participate.

8.4.2. During contests

8.4.2.1. The International Jury may temporarily vary any rules approved by CIVA during a contest under the following circumstances:

a) There is an absolute majority within the International Jury, when conducting a vote to introduce a temporary variation to the regulations, and

b) There is a two-third majority amongst the participating teams’ Chief Delegates, when conducting a vote to introduce a temporary variation to the regulations.

8.5. International Appeals Tribunal

8.5.1.1. Disputes of a sporting nature, or related to sporting events, that are submitted to FAI by its Members shall, as a last resort, be settled by an International Appeals Tribunal established in accordance with Paragraph 5.2.3.2.5. of the Statutes and the General Section of the Sporting Code.

a) In case of non-availability of judges selected at the end of stage 2 before the contest, the JC has full authority to take the best decision, in coordination with the International Jury and the CIVA Bureau, to appoint new judges to fill any vacant position.
10. **KNOWN FIGURES SELECTION**

10.1. **Governance**

10.1.1.1. The selection process for Known Figures for CIVA Power championships is managed by the Known Figures Analysis Working Group (KAWG).

10.1.1.2. The Known Figure set for each category of CIVA championships in the following year is selected by vote at the CIVA Plenary Annual Meeting.

10.2. **Process**

10.2.1.1. Every year and in a timely manner, the KAWG will send a request to all CIVA Delegates for submission of Known Figure sets (Power categories Unlimited, Advanced and Intermediate / Yak-52).

   a) The request will specify the deadline for submission, the e-mail address to which submissions shall be sent, and the format of submissions.

   b) Unless special circumstances apply, submissions shall be in OpenAero format.

10.2.1.2. Submitted Known Figure sets shall comply with rules set in the CIVA Sporting Code (current versions of Section 6 Part 1, Part 3, Part 5a and Part 5b as applicable), e.g. K limits, absence of repetitions, avoidance of conflict with versatility requirements...

10.2.1.3. The number of Known Figure sets submitted by any given NAC is not limited.

10.2.1.4. The KAWG chairperson or assigned secretary will check compliance of submitted sets.

   a) In case of non-compliance, the KAWG will notify the submitting NAC and request appropriate correction by a given deadline.

   b) In case non-compliance is not resolved as above, the KAWG will either discard the set or amend it to make it compliant.

10.2.1.5. The collection of compliant set proposals will then be published on CIVA websites, sent to all Delegates and sent to KAWG members for expert assessment.

12.8.2.3.
