

## **CIAM F5 Subcommittee**

### **Annual Report 2021**

Unfortunately, the two category 1 events F5B and F5J could not take place in the reporting year 2021. The organizers Bulgaria and Hungary want to make another attempt to hold the F5B World Championships and the F5J European Championships for Juniors and Seniors in 2022. Thank you in advance.

In F5B the FAI World Cup was cancelled without replacement. Only 3 Open Internationals were held with unfortunately smaller numbers of participants.

In F5J some World Cups took place. The separate F5J World Cup report will follow.

The various F5J proposals to CIAM 2021 were partially reactivated.

In general, the international activities and also the trials with the new classes F5A and F5E have run on the minimum. I hope for more activities 2022 and thank you for all initiatives.
