

**CIVL 2021 PLENARY – ANNEXE 16**  
**PARAGLIDING AEROBATIC COMMITTEE REPORT**

*Claudio Cattaneo*

The report of the 2020 season could as well consist in a blank page. Due to Covid-19, not a single event took part during the entire year, except a non-ranked national championship in France limited to 10 pilots, late in October.

The World Paragliding Aerobatic Championships in Italy, originally scheduled in August 2020, is now planned in July 2021.

Work is in progress to set up a Judges' training seminar in Latin America. It should be organised by the Colombian federation in Guatemala in December 2021. Nine countries have confirmed their interest. A budget has been requested, intended to fund the preparation of the seminar, the attendance allowance and the travel expenses of three instructors. All other costs are paid by the organiser, the participants and the NAC. The Bureau is following the project.

Apart from that, no significant news and no major modification requests of the S7B. The committee is confident that we will emerge from this long hibernation stronger than ever in 2021.
