Dates  Camp to be held ____July 23 to 30 2022
Please include a brief history of this camp: Date first held, attendees who became pilots, etc.

The general theme of this meeting is sharing and sporting discovery around the practice of Ballooning, the hot air balloon. This practice is offered thanks to the presence on the course of several balloons and two instructor pilots assisted by two other pilots and their teams. The voluntary commitment of all crews. The flights take place morning and evening. Theoretical training is also provided in both languages (French and German): Weather, historical knowledge, airspace, orientation.
The rest of the day is devoted to leisure activities, cultural discovery and language activities.
This internship takes place in turn in Germany and the following year in France.
It was initiated thanks to an exchange program with the FGYO and we are in the twentieth edition.
The majority of young people who take part in this course open training booklets. To date, dozens of young people who have attended this course have become pilots.
During the summer of 2021, two young former participants of the course were present in the management team as pilots!
