

# FEDERACION ARGENTINA DE AEROMODELISMO

Córdoba, 24 de marzo de 2023.-

A cordial greeting to all the representatives of the F5J class.

In the next plenary meeting of the CIAM, will be defined the realization of the World Championship 2025 and Argentina is a firm candidate.

We are anxious and expectant that it will be favorable and we can start working to make the best of the world championships in our country.

The reasons why we decided to organize it are experience, pleasure and necessity.

We have a magnificent place to fly, just a few minutes away from the city of Cordoba, which has a wide range of hotels as it is a tourist city and the proximity to an international airport with daily flights from Europe and the rest of the world by different airlines.

We have the governmental and local support to make this event a great competition and a better and happy stay for those who wish to visit us.

We need your support and we assure you that it will be rewarded.

Thank you very much for your support.

A handwritten signature in black ink, appearing to read 'Hugo Ernesto Bustos'.
