BALLOON LIVE SENSOR PROPOSAL

The FAI Ballooning Commission President received an overwhelming number of letters from delegates objecting to the organiser of the World Championship 2024 using a different logger system than FAI Balloon Live, developed and promoted by the FAI Ballooning commission and the ballooning community. Therefor the CIA bureau decided to add this as a topic to the agenda of the 2023 CIA plenary, presenting a motion to make Balloon Live logging system mandatory in all CAT1 AX events without observers.

The bureau also decided that at this point the president will not sign an Organisers Agreement that does not have a CIA approved system as operating competition system.

12 JUNE 2022
