Organizer and Location

**HISTORY**

MajFlaj is an event for RC controlled models, organized for the fourth time, by the RCSK aeromodelling club.

The Drone Race is an integral part of the MajFlaj event, with growing number of participants and countries.
LOCATION
MajFlaj event is organized on the local airfield Stenkovac, located north-west of Skopje.
Event

International revue meeting of the enthusiasts and exchange of the experiences with presentation of the radio controlled aircraft models – MAJ FLAJ – Stenkovci, Skopje, Macedonia.

The event is open to public where all categories of the radio controlled aircraft models will be promoted, the achievements of the Macedonian pilots will be presented, the experiences will be shared, the exchange of the experiences of the international pilots and their achievements of the international competitions will be presented.

VISION: To make the radio controlled aero sports one of the most recognizable sport and hobby in the region and strengthen the long term relation with International and Regional Clubs and their members.

MISSION: To deliver an unique experience for all those passionate about extraordinary sports and hobbies while promoting the healthy life style benefits of it as well as enhancing the country’s international profile with a main goal of becoming one of the best international RC aero sport events in the field.
Rules

GENERAL RULES
The 2018 editions of the following documents are applicable:

- FAI General Section and FAI Code of Ethics
  (link https://www.fai.org/sites/default/files/documents/sc4_vol_f9_dronesport_19-2.pdf)

RADIO CONTROL EQUIPMENT
The recommended frequency band is 2.4 GHz. Any 2.4 GHz radio control equipment may be used. Competitors may also be authorized to use other equipment, such as for example TBS Crossfire module (868 MHz and/or 433 MHz). Competitors will be requested to mention the frequencies they will use prior race.

VIDEO SYSTEM
The video system is based on 5.8 GHz frequencies. The VTX should be a quality one, with 25mW output power. The power and the spread channel on the band could be measured ahead of each race. If requested, the organizer can arrange compliant VTX and antenna.

LED LIGHT UNIT
LED lights are allowed, but are not necessary for the race.

BATTERIES
According to 2019 FAI rules, 6 cell batteries with up to 4.25V per cell (total 25.5V) are allowed. Battery charge could be measured ahead of each race.

ELECTRONIC TIMING SYSTEM
The organizer will use Immersion RF LapTimer, therefore no additional timing systems on the drones are necessary.
PROTEST
Any protest must be presented in writing and must be accompanied by a deposit fee of 50 Euros. The deposit is returned only if the protest is upheld.

FAI SPORTING LICENCE - FAI DRONE PERMISSION
Each competitor must possess a valid FAI Sporting License. In case of a missing license, competitors can register online at https://droneracing.aero/

Travel, Accommodation, Transportation and Food

**Travel**

Skopje international airport has flights from many European capitals, daily flights with Vienna, Zurich, Ljubljana, Istanbul.

**TRANSPORTATION**

Best transportation is with taxi, it is very cheap. Check with hotel receptions for ordering a taxi ride.

- Taxi from Airport to Skopje City Center: approx. 20 EUR
- Taxi from Skopje City Center to Stenkovec Airfield approx. 12 EUR
- 1 EUR = 61.5 MKD (can be between 61MKD to 62MKD)

Car rentals are also available throughout the city and at the airport.

**ACCOMODATION**

There are hotels in the city, can be booked on booking.com with price ranges between 30-60 EUR for a double room.

**FOOD**

There are many good restaurants in the city center, the food is nice and cheap.

During the event at the Stenkovec airport there will be booths with sandwiches and drinks.
