

CIVL 2022 PLENARY – Annexe 27
PROPOSAL S7C

PARAGLIDING Accuracy COMMITTEE

1

Remove the Judges Code from S7C (other than obligatory SC7C requirements like nation representation in Cat 1 events etc...) and put as a free standing document into the Paragliding/Documents/Officials/Judges section together with the other judges documentation.

The Judges Code starts off with...

"The Judging Code is in continuous development."

... this is surely not a desirable statement in a Sporting Code.

We should not allow complaints and protests at event based on, for example, the list of judges' responsibilities, their numbers or for example whether their highly visible clothing has an FAI/CIVL logo... (!)

This is a code for judges - not part of the Sporting Code with which competitors should comply.

The proposal is:

To remove the Judges Code from S7C (other than obligatory SC7C requirements like nation representation in Cat 1 events etc...) and put as a free standing document into the Paragliding/Documents/Officials/Judges section together with the other judges documentation.
