

CIVL 2023 PLENARY – ANNEXE 25
PARAGLIDING XC COMMITTEE PROPOSAL – REYNOLDS CLASS

Bill Hughes, Committee Chair

Add Reynolds Class to Continental Championships in 2024 as a test of the concept.

The Paragliding XC committee would like to add “Lightweight” as a new scoring sub-category as a test of the concept, and proposes it be added to the Continental Championships to be held in 2024. The category is comprised of anyone flying a wing for which the top of the certified weight range is 95kg or less.

Reynolds does not replace any existing categories, and participants in the Lightweight category are still part of the “Overall” category as well as the “Women” category (assuming they are female).
