RE: Supplemental report to CASI, new version of Proposal

Dear Graeme,

We have learned that IGC have prepared a proposal to CASI. The title of the proposal is *On precision of values claimed for records*, and its subject concerns General Section Chapter 7.

We are in agreement with the IGC proposal and have incorporated it into a new version of our proposal, which is attached. The only change from the previous version of our proposal is the addition of a new paragraph, 7.3.2.

IGC agree with this method of handling their proposal. We are attaching a copy of their original proposal for reference, and emphasize that the IGC proposal is not being submitted for separate consideration by CASI.

Sincerely,

Hans Åkerstedt <hasse.akerstedt@telia.com>
José Luis Esteban <aerobiomat@gmail.com>
Joerg Ewald <joerg@yourstruly.ch>
