

# FAI - Aviation and Space Education Report 2013

## Switzerland

### 1. Youth membership

Our youth membership offer continues to enjoy great popularity and the number of youth members consistently runs at around the 1200 mark. All of them have taken part in a Swiss Aero Club programme.

### 2. National Art Contest

The number of drawings was a new record. In total, we received 1044 drawings, a rise of around 300 compared to the previous year. The target set of 1000 drawings was finally achieved.

We have published two short video with the winners paintings on youtube.

National winners: [www.youtube.com/watch?v=9lZM1tj6X1I](http://www.youtube.com/watch?v=9lZM1tj6X1I)

International winners: [www.youtube.com/watch?v=FIDh1FiGxnI](http://www.youtube.com/watch?v=FIDh1FiGxnI)

The winners of last year's competition were able to enjoy a flight of around an hour in a Swiss Air Force Helicopter at an air show. [www.aeroclub.ch/zw](http://www.aeroclub.ch/zw)

### 3. JULA: The national youth camp

During the reporting year, the Swiss Aero Club, under the patronage of the ProAero foundation, again conducted a highly successful and incident-free ProAero aviation youth camp at the tried and tested location in S-chanf (Engadine).

It was the 31<sup>th</sup> ProAero youth camp with 190 highly motivated participants.

The website was redesigned and updated in view of the anniversary. And in cooperation with the Swiss army we have produced a short movie about the youth camp. The trailer and the movie were also published on youtube.

#### 4. 7<sup>th</sup> National Aviation Youth Day in Birrfeld

For the third time, we have made the annual Youth Day part of a national aviation show. We received around 180 registrations. In order to be able to enter the competition, the young people had to carry out research on the airfield. We also held a photo competition. The prizes were remote controlled model aircraft as well as sight-seeing flights and tandem jumps. Unfortunately, the weather conditions were very bad.

## 5. YES – Young Eagles of Switzerland

Every year, several dozen young people between the age of 12 to 18 take a YES flight, which is organised by regional Aero-Clubs. Youngsters between the age of 14 to 18 are registered as youth members after having taken their YES flight and thereafter, through their membership, continuously confronted with aviation topics.

## 6. IACE

The young aviators' exchange was held successfully; this year with 10 cadets. Canada was included in the exchange for the first time. In addition, the experience reports published on it. We were able to generate additional income for the benefit of the IACE from banner advertising on the site.
