

IGC History Group Report 2015

The working group for IGC History has had its usual medical and computer problems. We have now decided that our first priority must be to safeguard the material that we have gathered. In cooperation with the FAI IT-expert the WG has been given dedicated space on FAI's external server, and we have started to upload everything.

After a meeting at the museum at the Wasserkuppe in October we have had monthly Skype meetings.

Involved people in the work are: Fred Weinholtz, Peter Selinger, Angela Sheard, John Roake, Manfred Reinhardt, Wolfgang Weinreich, Juergen Knueppel, Frauke Elber, Stefanie Gester and Tor Johannessen.
