# OLC Representative Report to IGC Plenary 2018

The OLC-season 2017 features record number of registered flights as well as record figure in cross-country kilometres.

Above figures show OLC as worldwide leading platform for cross-country orientated gliding. Be it Europe, Japan, USA, South Africa or Australia, enthusiastic pilots round the globe register their flight performance within OLC. Especially the OLC-leagues are very popular within gliding clubs. During 19 laps on week-ends throughout the season, clubs fight for every point. In Germany it is very popular since years. The league is such popular, that it has spread out to countries like USA, France and Switzerland.
