December 2019

OLC Report to the IGC Plenary 2019

The OLC-season 2018 features record number of registered flights, recorded kilometres, competitors and page views. Again a very successful gliding season world-wide and a continuous success for OLC.

The OLC season 2019 is already in full swing since October 2018. This is done to cover the southern and northern hemisphere gliding season within one OLC year. For further information, please ask me during next plenary meeting or via E-Mail or on: <https://www.onlinecontest.org>

Best Regards, Christof
