Presentation for

9th FAI Women's World Gliding Championship 2017

Aeroclub Zbraslavice
Aero club of the Czech republic
Aeroklub Zbraslavice (République Tchèque)

Pour son exceptionnelle contribution à la promotion de multiples disciplines de l'aviation sportive, et plus particulièrement des planeurs de collection, ainsi que pour l'organisation de nombreuses compétitions de haut niveau.

Le Secrétaire Général de la FAI
Le Président de la FAI

Lauanno, le 12 octobre 2005

Aeroclub Zbraslavice has been honoured by the FAI for development and support of gliding
The Czech Republic in Europe

Zbraslavice in the Czech Republic
In 2008 we organized Czech national championship of the Czech regions, where 90 pilots competed.
The airfield is on the border of MTMA Caslav and close to TMA Prague. There are usually no restrictions during gliding competitions by either military or civil aviation. All military training areas are released for glider pilots up to FL95. TMA Prague close to the airfield is at FL75 (1800m AGL), resp. FL65 (1500m AGL), which means no significant competition obstacles.

The area used for cross-country flights provides enough space for tasks – up to a 1000km triangle and easy separation between classes.

We also use part of Austrian, German and Polish airspace, which makes the usable area much larger.
Summary of IGC files for all registered crosscountry flights in 2010

LKZB is situated in a busy gliding area, which is often sought after by glider pilots from all over the Czech Republic.
ZBRASLAVICE AND SURROUNDING LANDSCAPE

- Zbraslavice airfield (LKZB is located in Hornosazava rolling hills (496m ASL), part of Czech-Moravian highland.
- South of the airfield there is a water reservoir Želivka.
- The surrounding hilly landscape → suitable conditions for the development of thermals already during morning hours.
- In the northwest direction, Polabská lowland and the Giant mountains together with Jizerské mountains can be found.
- To the south and the east, there is Czech-Moravian highland (600m ASL) - an important gliding area.
- Northeast - Iron mountains (a distinct range enabling slope gliding)
- Southwest - rolling hills area near Benešov city
- Many different terrain shapes within quite small area
- Tasks usually oriented southeast and east towards Czech-Moravian highland
- Average climb speed up to 2-3 m/s with reach 1300-1800m in the lowlands, in highlands climb speed 3-5 m/s
- Safe outlandings (Czech republic is surrounded by mountains not more than 1600m high)
Accommodation: 11 + 20 beds in 2-3 bed rooms
Toilets and showers are in the back of the hangar
and new reconstructed showers are near the
camping site.
Caravan (RV) camp and camping site supplied
with electricity.
Swimming pool with wadding pool for kids are
near our local aeroclub pub „U vrtule“, which
offers breakfasts, lunch and dinner as well.
There is children’s playground at the airfield near
the camping site.
Service facility: Mr. Miroslav Manda
Glider constructing company: HPH Kutná Hora
