PROPOSAL TO IGC PLENARY 2018

Year 2

Proposed by IGC Sporting Code committee

Correct table of badge and record requirement errors

It is proposed:

1. To specify that the release point (or stopping the Means of Propulsion) is not an option for starting a declared closed course task.
2. To specify that a Goal distance declaration has to contain only a start and finish and no turn points.

This proposal affects:

- In the table of Badge and Record Requirements, change "OK if declared as start/finish point" to "no" in the Release or MoP stop column.
- In the table of Badge and Record Requirements, change the "declared" column of the Max # of TPs to "0" from "3"

Discussion:

When the summary table describing performance requirements was introduced into the Code, it contained these two errors. There is some controversy as to the origin of these entries in the task table, and they may have been introduced erroneously. There is no such option provided in the body of the document.
