

PROPOSAL TO IGC PLENARY 2012

Proposed by the Bureau

It is proposed that the 13.5 metre Class is redefined in the Sporting Code Section 3, Gliding (Main Body) as follows:

6.5.6 13.5 metre Class

Note: The first 13.5 metre class World Championship will not be before 1st October 2014

- a. WINGS: The span must not exceed 13.500 mm.
- b. BALLAST: Disposable ballast that may be discharged in flight is permitted.
- c. WING LOADING: Maximum Wing Loading permitted is 35kg/m²

Consequential to the above;

6.5.7 World Class

Note: No World Class World Championships after 1st October 2014

This Proposal affects:

Sporting Code Section 3 – 6.5.6 and 6.5.7

Annex A Rule – nil

Other – nil

Reasons supporting the Proposal:

Arising from discussions at the 2011 IGC plenary meeting, the Bureau was asked to raise the above proposal.

Note: nil
