

## PROPOSAL TO IGC PLENARY 2017

Proposed by France

Affects: Sporting Code 3, Annex D

### Proposal 3 - Year 1 proposal

**Ratings obtained from a result gained from two seater or 20m results can only be included in a Ranking list subcategory if all occupants comply with the rules for that category.**

IGC ranking list subcategories are Juniors and Feminine ranking lists.

Justification for the proposal.

A junior or feminine pilot may gain an artificially high pilot rating by sharing a contest with a more experienced or skilled pilot who has a lower or no IGC pilot ranking.

This proposal affects the procedures for calculating the IGC RL and the data collection of contest results.

If passed a detailed proposal on how this rule could be implemented would be presented to the 2018 Plenum.
