

**Amendment by the Netherlands to the proposal 8.2.1
Originated by the Annex A committee**

By the Annex A committee it is proposed:

To change the distance required for 1000 points into

13.5 Metre and Club class	250 km
Standard, 15 Metre, and 20 Metre Multiseat classes	300 km
18 Metre and Open classes	350 km

These changes are based **on the glide ratio** of the gliders, 20 and 40% extra km's to fly for a 1000 points day.

In addition to the proposal 8.2.1, analogous to the change of the minimum distance for a 1000 points day, the minimum distance of 100 km (D_m) should change into:

13.5 Metre and Club class	100 km
Standard, 15 Metre, and 20 Metre Multiseat classes	120 km
18 Metre and Open classes	140 km

which is also an increase of 20% and 40% of the original distance.

Reasons to support the amendment:

To change the distances in the scoringformules depending on the glide ratio makes sense, but then it should be done also for the minimum scoring distance D_m .
