

**PROPOSAL TO IGC PLENARY 2017
Year 1**

Proposed by Annex A Committee

It is proposed:

To change the distance required for 1000 points.

This proposal affects the minimum distance the winner must fly in order for the day to have full value. Currently, the minimum distance for a 1000 point day is “250 km for all classes.”

We propose to change this to:

13.5 Metre and Club class	250 km
Standard, 15 Metre, and 20 Metre Multiseat classes	300 km
18 Metre and Open classes	350 km

This proposal affects: SC3A para. 8.4.1a and 8.4.2a

Reasons to support the proposal:

The current rule was written when there were only two competition classes and the range of performance of gliders was much smaller than it is today.

In a multi class championships, all competitors should face similar challenges, regardless of class, and the final score totals should be similar for all the classes.

This proposal will balance the results in multi class championships and encourage the Task Setter to set Tasks that are sufficiently challenging for all classes.
