

PROPOSAL TO IGC PLENARY 2018
Year 1
Proposed by Lithuanian Aeroclub
Proposed change in the definition FAI class 13.5 m

The purpose of the Proposal is to promote a successful and safe competition environment in the FAI 13,5 m Class.

The Proposal

With the intention of giving more sport interest, space for innovations and safety to the class, we propose the following definition of the FAI 13.5 m Class:

- Wingspan of 13.5 m;
- MTOW 350 kg.

Document required to be changed

FAI SC3 ANNEX A

P 4.2.1

part f

Discussion

Our Proposal is based on Certification and Safety requirements described in the attached Annex.

Annex to the document:

Proposal regarding future of the 13,5 meter Class, signed by Competitors of the 2nd FAI 13,5 metre Class World Gliding Championship, Szatymaz, Hungary - Jun 29 - Jul 16, 2017.
