Year-1

Proposal from Spain on

delete the requirement of communicate the start time

Rationale:

For historical reasons the we understand, on ANNEX A on paragraph 7.4.7 there is a requirement of the pilot to communicate to the organizers the start time. Time ago that was very convenient, because allow to the organizers to know how the task was developing, however nowadays with the live tracking technologies, it makes no sense anymore, on top of that, some championships require to do it and some others do not, to it is better to withdraw that requirement.

Proposal:

To delete completely on ANNEX-A paragraph 7.4.7 **Communication of Start Times**.
