

PROPOSAL TO IGC PLENARY 2018

Late other proposal

Proposed by France

Women WGC classes

The Proposal

The WWGC shall be organized in only two classes - instead of three today.

This proposal will apply for the 2019 WWGC in Australia and also next editions of WWGC.

Discussion

- There are not enough high-level women pilots worldwide to fly in 3 three classes in WWGC. We have often seen classes in WWGC with only the very minimum required number of pilots. The risk of having a class not valid class is high. It's true even when the WWGC is in Europe. We assume it will be the same in Australia or anywhere else.
- The level and the sporting interest of the WWGC will increase.
- This will help to promote gliding for women.
