PARACHUTING AIRCRAFT INCIDENTS

Technical & Safety Committee

International Parachuting Commission (FAI)

IPC Plenary Meeting, Lille, France, January 2019

This listing is being distributed by the IPC's Technical & Safety Committee, to IPC Delegates at the IPC Plenary Meeting, held at Lille, France, 2019, and by e-mail to Parachuting Technical & Safety Officers.

Please note – the 2016 incident and the five 2017 incidents were not reported in previous Parachuting Aircraft Incident reports

<i>Date</i>	<i>Aircraft Type</i>	<i>Details of Incident</i>	<i>Injuries</i>	<i>Fatalities</i>
2016 15 Sept	Cessna 208 Super Caravan	A skydiver's main parachute opened in the door of the aircraft. The skydiver hit the left stabilizer sustained a broken leg. There was little damage to the stabilizer	1	0
2017 10 June	Pilatus B2H4 Porter	The aircraft was badly damaged as it left the runway on landing	0	0
2017 16 July	Cessna 185	The aircraft was totally destroyed when it suffered a flame-out after takeoff. The pilot was very seriously injured and four skydivers seriously injured	5	0
2017 12 August	Cessna 206 Soloy	The engine and propeller were damaged after a propeller ground strike while the aircraft was taxiing	0	0
2017 03 Sept	Cessna 206	The aircraft was completely destroyed, burnt out, after a flameout after takeoff. The pilot and one skydiver died and four skydivers were seriously injured.	4	2
2017 24 Sept	Cessna 207	Engine fire, after flameout on descent after dropping skydivers. The pilot landed the aircraft safely.	0	0
2018 09 Feb.	Cessna 182 and Cessna 185	Nine skydivers were about to exit the two Cessnas, flying in formation, when the Cessna 185 went over and came down on the Cessna 182. Structural damage and fire occurred. The skydivers all exited safely, as did the pilot of the 182. The 185 was landed by its pilot. The 182 was totally destroyed.	1- the pilot sustained minor injuries	0

2018 20 Feb	Pilatus PC-6	Runway excursion, landing in crosswind, having dropped a load of skydivers.	0	0
2018 21 Feb	Cessna 208B Grand Caravan	Collapse of nose landing gear. due to corrosion	0	0
2018 18 March	Cessna U206G Soloy Stationair 6	Aircraft overrun runway on landing.	0	0
2018 31 March	Cessna 208B Grand Caravan	The skydiving plane following a mechanical issue made an emergency landing in a private field near the airport. The pilot initially tried to return to the local airport. The nose landing gear collapsed. The occupants suffered minor injuries.	7	0
2018 06 April	Cessna 207 Soloy	The engine and propeller were damaged when the propeller suffered a ground strike on landing.	0	0
2018 08 May	Cessna 182F Skylane	Following a loss of engine power shortly after takeoff, the aircraft force - landed on open field terrain. The airplane sustained substantial damage and three of the five occupants onboard received injuries. Two occupants onboard the aircraft were not injured.	3	0
2018 13 May	Cessna 208B Grand Caravan	Having despatched a load of skydivers at 13,000 ft, the Cessna Grand Caravan descended and crashed about 2 km from the airfield.	0	2 – pilot and child passenger
2018 22 May	Cessna 206 Soloy	The engine and propeller were seriously damaged after a propeller ground strike on landing	0	0
2018 31 May	Cessna 182Q Skylane	Aircraft made a forced landing on a beach	0	0

2018 16 June	Cessna 205	The aircraft was seriously damaged after it exited the runway on landing	0	0
2018 23 June	Cessna 182 Skylane	Following a loss of engine power, the aircraft force-landed on a residential street. The airplane sustained substantial damage and the sole pilot onboard was not injured. There were no reported injuries on the ground.	0	0
2018 27 July	Pilatus PC-6 B2-H4 Turbo Porter	A wingsuit skydiver was hit by the wing of the aircraft while descending. The skydiver was found dead on the ground. The airplane damages are unknown.	0	1
2018 25 August	Cessna 182A Skylane	Following a loss of engine power during takeoff, the aircraft stalled and subsequent impact the ground. The aircraft was partially consumed by the post-impact fire and four of the five occupants were fatally injured. One fifth occupant received serious injuries.	1	4
2018 27 August	Cessna 182L Skylane	The aircraft, on landing, suffered a runway excursion, crossed a dirt road and flipped over. The skydiving airplane sustained substantial damage and the sole pilot onboard was not injured.	0	0
2018 22 Sept	Pilatus PC-6 B2-H4 Turbo Porter	While the aircraft was being pushed back it struck a vehicle, which was parked behind the aircraft.	0	0
2018 07 October	Cessna 182	The Cessna 182, with Instructors, an experienced parachutist and a level 7 AFF student, experienced an engine problem at 4,000, resulting in the aircraft having little power. Following an aborted landing the aircraft landed and skewed to the port side when the brakes were applied. There was no impact but damage to the undercarriage and the body resulted. None of the four parachutists had left the stricken aircraft.	0	0
