

CIVA Private and Commercial Teams W/G Report

At the 2016 plenary in Bucharest a President's Proposal suggested that it should be possible for Private and Commercial Teams to be accepted at CIVA championships, their status to be handled in a carefully defined manner. The detail provided in the proposal was not found to be favourable at plenary, however while I have not been encouraged to refine the idea for further review the subject has now been incorporated into a much broader set of strategic proposals submitted to the bureau by Castor Fantoba.

Subject to plenary approval Castor's proposals will now be handled by the CIVA Strategic Planning W/G, and therefore this report marks the closure of this separate matter.
