

PRECISION FLYING SUBCOMMITTEE MEETING

2024 FAI GAC MEETING – FUNCHAL POR

AGENDA Precision Flying Subcommittee

Friday, 8th of March 2024

1. **Welcome**
2. **Members of subcommittee**
 - Mutations
 - New member
3. **WPFC 2026**
 - Bid POL
 - Alternatives
4. **WPFC 2029**
 - Option: CZE
 - Alternatives
5. **Rules & Regulations: Precision Flying**
 - General updates
 - Points for discussion:
 - CZE: “Globally use Open Street maps for competitions or at least for championships. This would level the playing field as all competitors would be familiar with the map and any doubts about suitability and actuality of the maps would be almost eliminated.”
 - CZE: “Discuss the use of reserve day on championship. It seems that in order to minimize the length of championships or due to other restrictions, the reserve day no longer serves its original purpose.”
 - SUI: “If, for navigation, the wind (according forecast) exceeds 20 kts, flying should be stopped.”
6. **Rules & Regulations: Landing Appendix**
 - Project “virtual obstacle”
