

World Air Games Liaison Officer Report 2013

FAI has started the bid process in October 2012. End of June 2013, the organizer agreement should be signed. To date, no country could be found to host the WAG 2015.

It is important for GAC that Air Navigation Race is integrated into the WAG info list. But, it is also important that in 2014 be held many national competitions. Only the best pilots of the national championships can participate in the WAG. When the next WAG is awarded, we can take action so that the organizer will take ANR into his program.
