

EnvC 2016 report

- Providing tools to protect wildlife and support events' organizers in setting up low footprint competitions :
 - DONE (Green event certificate)
- Little attraction to Air Sports and NACs: giving up communication (Newsletter, Ambassador)
- We nonetheless had Sporting Code adapted with CASI

EnvC 2016 report

WHAT'S NEXT?

- Fully betting on electric flying
 - *High technology to provide low noise (hopefully) and lower CO₂*
 - Electric flying goes across Air Sports borders
- Communication on Electric flight status to spread knowledge and gather projects
 - Air Sports and NAC experts to share views and experiences with us
 - EnvC available for conferences and whitepapers

EnvC 2016 report

PROJECT

- Organizing electric flight challenges
 - **London to Paris to Moscow in 2018 (technology permitting!)**
 - Vancouver to Santiago
 - New York to Paris! (Before 2029! 😊)
- Air expeditions for nature preservation
 - Green flight adventures with media coverage
- Exploring Green Races with cars and motorbikes

➤ Working with CIACA and other Air Sports
