2018 Freefall Style and Accuracy Landing Report

The 35th FAI World Freefall Style and Accuracy Landing Championships and the 9th FAI Junior World Freefall Style and Accuracy Landing Championships in Erden/Bulgaria, from 24. – 31. August was the most important event in 2018.

The following number of competitors participated in the disciplines of Freefall Style and Accuracy Landing:

145 Male, 53 Female, 28 Junior Male & 6 Junior Female from 34 Nations.

The competition was very well prepared. All competitors were happy about the very good organization and running of the competition. In both disciplines the competition was completed, including tie breaks.

Many thanks to the organizers (especially Ani, Angel and Vesela Stamenov) who made a very good job.

For the competition, the complete electronic system Weckbecker was used.

For the future it has to be guaranteed that only approved systems are accepted with a complete back up system!!!

Two nations had registered for the competition, but they did not arrive!

The World Cup Series in AL was again carried out in six different countries.

Between 23 and 46 Teams participated in all six events.

Future competitions:

World Cup 2019 Cordoba/Argentina

Mondial 2020 Tanai/Russia

ECS & WC 2021 Vichy/France (Bid) ?

World Championships 2022 China?

I would like to thank all members of the Committee for their work in 2018.

Günter Berendt

Chairman of Freefall Style and Accuracy Landing Committee

30 November 2018
