Mob. +39336674417

**To :**           **Gunter Berendt Chairman of IPC Style and Accuracy Committee  
IPC/FAI Meeting in Frankfurt January 2016**

**Object :**       **Modification proposals to S&A 2015 Competition Rules**

**Our first proposal:**

“A camera system will be used to record each landing. If the judges, or the team leader of a landed team, ask to check a specific landing with this system, only the Chief Judge or the Event Judge can see the recorded video of that specific landing . The Chief Judge is allowed to show the video to the concerning competitor and team leader.”

This recording system is already used during WCS,2° category events, with judges and competitors satisfaction in case of landing doubts and this new rule could be added to the CR point 5.1.5 (Target)

**Our second proposal:**

We propose to establish in 15 seconds , instead of 10 seconds , the time “before the wind speed exceeds the limit” , see S&A C.R. point 5.1.3 Wind Speed, because, in our experience, the competitor can be damaged by the out limit wind when he is higher than as for 10 seconds on the target.

Respectfully

**Sandro GARGINI Italy IPC/FAI Delegate**

**Paolo BEVILACQUA AeCI S&A Competitors Selector**
